Products Used:	Briton 1100.T track arm door closers Briton 5400Series cylinder lockcases

Briton door hardware is the logical choice for offices such as Belvedere House. Its proven long-term reliability and durability means that specifiers can be confident of its lifecycle performance and its attractive styling making it architecturally and visually appealing.

To complement this prestigious and beautifully designed building, Wilson Bowden Developments needed to ensure that the architectural ironmongery was not only visually appealing but that it performed efficiently and to the highest standards.

Briton door hardware is the logical choice for such schemes. It's proven long-term reliability and durability means that specifiers can be confident of its life-cycle performance and its attractive styling.
